

Chico Poison Skies Alert!

You are being sprayed with Aluminum and other toxic heavy metals and chemicals.

Water tests in Chico are as high as 7,000 parts per billion of highly toxic

Aluminum — over seven times higher

than concentrations requiring *mandatory* EPA action.

These values should be near zero. This aerosol spraying is occurring on an almost daily basis in California, around the U.S. and the rest of the world. What you see in the skies above Chico are not “jet contrails”! **Join us now** to help stop this attack on our health, our populace, our children, our food, and our environment (air, water, & soil). Spread the Word. It must stop **now!**

Come and see the documentary film:

What in the World Are They Spraying?

Saturday, April 2 at 2:00 pm

The Pageant Theater • 351 East 6th Street
